

As Part of Its GREEN Initiative, U. S. HealthWorks Medical Group Expands the Use of the Demolizer® II after Realizing Cost Savings and Safety Benefits

BioMedical Technology Solutions Holdings, Inc. (OTCBB:BMTL)

ENGLEWOOD, CO (8-2-10) -- BioMedical Technology Solutions, Inc. (“BMTS”) working with Henry Schein Medical Distribution is pleased to announce the successful completion of a three month multi-state trial of its Demolizer® II System at U.S. HealthWorks Medical Group, a leading operator of occupational healthcare centers in the nation. Based on the savings realized during this trial, U.S.HealthWorks is beginning expansion of the technology throughout its network through an initial purchase of ten systems.

BMTS and Henry Schein have collaboratively worked with U.S.HealthWorks to conduct a pilot trial of the Demolizer® II, a GREEN alternative to traditional biomedical waste management. The goal was to simplify operations and substantially reduce their waste stream and overall costs while maintaining the high standard for safety and compliance that U.S. HealthWorks has set for its medical centers. Pilot locations were selected covering a broad section of some of the busiest U.S. HealthWorks facilities. BMTS’ regulatory and technical support team worked collaboratively with U.S.HealthWorks safety specialists and pilot site team members hosting medical waste identification and segregation workshops.

“Usage of the Demolizer II has helped us lower the cost of biomedical waste management by 70%, exceeding our initial projected savings. We are looking forward to rolling this out to more of our centers nationwide,” said Joseph Mallas, EVP of Operations, U.S. HealthWorks.

Don Cox, BMTS President, says “I look forward to meeting with Joseph Mallas and Jason Gateas, U.S.HealthWorks National Director of Purchasing, in the next couple of weeks to discuss the potential further rollout within the U.S.HealthWorks organization.”

About U. S. HealthWorks Medical Group

Based in Valencia, Calif., U.S. HealthWorks Medical Group was founded in 1995. With 161 centers, including 27 worksite locations, in 15 states and 2,000 employees – including approximately 350 affiliated physicians – U.S. HealthWorks centers serves thousands of patients each day throughout the country. U.S. HealthWorks centers help employers control work-related injury costs through quality medical care and effective management of claims and lost work time. They specialize in early return-to-work programs, injury prevention and wellness programs.

About BioMedical Technology Solutions Holdings, Inc.

BioMedical Technology Solutions Holdings, Inc., located in Englewood, Colorado sells the Demolizer® II through its wholly owned subsidiary BioMedical Technology Solutions, Inc.

BMTS' patented Demolizer® Technology converts infectious biomedical waste into non-infectious material. BMTS' products provide biomedical waste treatment solutions for the over 1,000,000 low to medium volume medical waste generators in the US and a global market five times larger than the US. For more information, visit www.bmtscorp.com or call 866-525-2687.

About the Demolizer® II

The Demolizer® II is the GREEN alternative to biomedical waste disposal. The device is the only patented, portable, and self-contained system able to process both sharps and typical red bag biomedical waste onsite. The processed waste is rendered sterile and discarded as common trash eliminating up to 100% of the cost associated with its disposal. The Demolizer® II meets or exceeds all EPA and CDC guidelines and is approved or meets treatment requirements in 47 states after review by 78 governmental agencies. The device uses no chemicals or liquids, plugs into a normal outlet through a surge protector, and automatically records and prints state required documentation. The Demolizer® II provides a safer, more environmentally GREEN method for biomedical waste disposal.
